7 Women File a Lawsuit against University of Wyoming Sorority for allowing a Man into their Women's Only Club.

"One sorority member walked down the hall to take a shower, wearing only a towel," the document says. "She felt an unsettling presence, turned, and saw Mr. Smith watching her silently."

I hope they win, they should win! Being used as fodder for a pervert because the uni chose to fail in safeguarding these girls to save the 'feelings' of a male who took advantage of his ability to 'identify' as a female.

This is an interesting case to follow and see the arguments on either side and outcome. I hope the women win and it shows a start of sanity returning

Being able to dress like a woman and infiltrate womens personal space is a wet dream for these perverts.
It is the only way that this reprobate will ever see a naked girl and it gives our females nowhere they can call private or safe

 This is INSANE. He's watching them undress, in one case with a visible erection, in other cases with a pillow on his lap. He's asking them intimate questions.
 The vote to admit was supposed to be anonymous & unanimous— turned out to be neither; women felt pressured to vote yes.

Could be a plot for a new horror film set in a sorority house. Billy is back and identifies as his mother.
